

Clark Forklift

Clark Forklift Forklift Training - Performing globally, there are currently 350,000 Clark forklifts and lift trucks in operation, with in excess of 250,000 of those operating in North America. Clark has five main lines of forklifts across the globe, making it one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 unique makes of lift trucks, with components covering more than 120,000 specialized parts for all of its automated equipment. Your local Clark Seller is your total source for availability of all your parts requirements supplied by Clark Totalift.

Clark has a exceptional Parts Distribution team. The components warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their buyers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Driven to provide the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to improving productivity and benefiting performance.

Worldwide, Clark has one of the most amazing supplier support networks. With over 550 locations globally, supplier representation in over 80 nations and 230 locations in North America, their high level of commitment to their customers predominates the material handling industry.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of modernization in the industrial equipment and automated lift truck industry. This exceptional commitment to safety is currently a customary feature on every forklift.

Clark has a uncompromising goal to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its manufacturing plants. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any number of environmental limitations, thus placing them in a prevailing market position.

Lean Manufacturing

Clark has preferred the extremely economical and beneficial structure of "Lean Manufacturing" for its assembly facilities and use of resources. This structure was established to acknowledge the most efficient method of manufacturing facility stewardship and ensuring maximum proficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Engine Design

Clark's product engineers and suppliers join together to upgrade the proficiency and brilliance of their products while minimizing costs. The new value engineering agenda combines modern product improvement and offers superior consumer support and service within the industry.
