Aerial Lift Train the Trainer Mississauga

Aerial Lift Train the Trainer Mississauga - The Aerial Lifts Train the Trainer Certification Program teaches trainers how to efficiently train operators in safe industrial mobile equipment operation. Trainers are given in-depth instruction about aerial lift machine. The program is offered on an open enrollment basis and delivered at select training sites. Prior to certification, trainers are assessed and graded based on their demonstrated skills and knowledge.

The Aerial Lifts Train the Trainer Certification Program focuses on practical learning and as the best training provider within the business, we provide top notch hands-on training. We provide lots of opportunities to practice the concepts and techniques which are taught within the classroom. Along with hands-on experience, trainers develop general understanding of equipment theory and instructional techniques, classroom and field communication skills, and ability to effectively train and evaluate operators. Trainers would gain knowledge about what traits make an effective trainer.

The Aerial Lifts Train the Trainer Program likewise teaches the proper methods necessary in order to express the correct information inside the classroom and field setting. There are three factors of machine operation which the trainer should learn how to convey to operators: what to perform; how to do it; and why it must be done.

In the program, trainers will be given the latest, detailed reference material to better help them convey the information to machine operators. The manuals used, contain detailed information on all aspects of industrial mobile machine operator training. Included within the package are training aids that provide a visual reference to improve the learning experience. The equipment-specific training products contain important materials meant for both the operator and the trainer: videos/DVD's, overhead transparencies, safety message posters, kinds of equipment; stability pyramids and digital training aids.
